In a globalized world, we make it possible to have a cultural and life-enriching experience that has a lasting positive impact on a young person’s life.

This is our passion!

Who we are!

Global Horizons USA is a family run business that has more than 45 successful years of experience in international student exchange. Our large and personal network of schools and experts in this field enables us to offer a special service that is flexible and extraordinary. Our small team and a limited number of participants annually create the basis for a strong bond with our students and their families.

For us, customized education means that expectations, interests, hobbies, academic goals, talents and passions are the best attributes in selecting the right school and the best host family where our students can grow, develop and most important, be successful. We make this adventure one of the most valuable and memorable experiences for our students future!

“Our most important goal is that all our students have a happy and successful time in the USA and can build up lifelong lasting friendships. Most of our students say they found a home away from home and a second family!”

Paul B. Hallgrimson
Founder & Honorary President
